Snap Fitness Business to business wellness program

Here at Snap Fitness we believe fitness is an important part of a healthy lifestyle. Our goal is to promote a healthy lifestyle throughout our entire community. As part of our commitment to a healthy community we want to work together with local businesses to encourage their employees to get and stay active. We can do this by offering committed employers a discounted membership rate for their employees, as well as discounted personal training with our personal trainer, Amanda. Membership rates are being discounted by 10%, while personal training is being discounted by 15%. This means a 30 minute session with a trainer is \$30 and an hour long session is only \$51. Employees do not need an active membership to take advantage of our amazing personal trainer.

There is no cost for employers to offer this program to their employees. All that we ask in return is a signed agreement to participate and that the employer promotes the program within their company. If 10 or more employees sign up for a membership we will increase the membership discount to 15% the following year. Remember, A healthy and active employee is a productive employee.

If you are interested in participating in this program, please fill out and return the attached agreement as soon as possible. Please note, we will not be able to honor the discounted rates without a signed agreement. Discounts are not applicable to already discounted rates (i.e. 12 month commitment) If you have any questions please contact us at (802) 476-0460
